

ASU Luban Workshops Practical Training Courses 2023

Luban Workshops at Ain Shams University announces PRACTICAL training courses for engineering and technology students and graduates in the fields of CNC machines operation and maintenance, Renewable Energy Installations and Operations, and Automotive Inspection and Maintenance. The courses will be held at the unique facilities of Luban Workshops at the Faculty of Engineering - Ain Shams University. **Register NOW by visiting our website.**

- 1.1 CNC Hardware Connections and Operation
- 1.2 CNC Maintenance (Intermediate Level)
- 1.3 Introduction to MicroMouse
- 2.1 Installation, Design, and Operation of Photovoltaic Systems
- 2.2 Photovoltaic & Wind Energy Conversion Systems
- 2.3 Wind Power Generation
- 3.1 Fault Diagnosis and Elimination of Automobile Electrical System
- 3.2 Engine Management and fault diagnosis:
- 3.3 Automotive Engines Maintenance
- 3.4 Maintenance of Mechanical System in Automobile Engine
- 3.5 Basic Engine Training
- 3.6 Basic Electric Training
