## 2018 Bylaws Freshman Scenarios

## Article (10): Placement Tests to newly admitted students.

The study at the Faculty of Engineering requires minimum level of English Language and Mathematics. The Faculty Council can organize a placement test for the students enrolled to the Faculty in English and Mathematics. The Faculty Council can ask the students who fail these tests to take zero credit courses in order to have equal opportunity with other students.

A placement test in Mathematics is organized for all accepted students except students with an Egyptian High School Diploma (Thanaweya Amma), IGCSE Certificate, BAC French Certificate, Abitur German Certificate, or graduated from STEM and Nile Schools. A placement test in English is organized for all accepted students. The Education and Student Affairs Committee can study any changes in these rules according to the study needs.

A student with an ILETS score more than 5.0 is exempted from the Placement Test, and qualifies to be exempted from ASU322 Language Course. His grade will be determined by the ILETS score.

To pass any test or course, the student should score more than or equal $60 \%$ of the total mark.

## Article (18): Terms of Course Registration

- The student may register courses in the main semesters with a maximum total Credit Hours according to the following rules (after approval of the Academic Advisor):
- Up to 21 Credit Hours or 7 courses, whichever is greater for a student with a GPA larger than or equal to 3.0
- Up to 18 Credit Hours or 6 courses, whichever is greater for a student with a GPA larger than or equal to 2.0 , but less than 3.0
- Up to 14 Credit Hours or 5 courses, whichever is greater for a student with a GPA less than 2.0
- The student may register courses in the Summer semester in a maximum total Credit Hours according to the following rules (after approval of the Academic Advisor):
- Up to 9 Credit Hours or 3 courses, whichever is greater for a student with a GPA larger than or equal to 3.0
- Up to 8 Credit Hours or 2 courses, whichever is greater for a student with a GPA less than 3.0
Each student has to register at least 12 CH in the main semesters whenever there are available courses. If a student does not register the 12 CH in any main semester, it is considered an academic warning for him. Moreover, for Inter-Disciplinary Programs, the student has to pay the tuition fees corresponding to 12 CH every main semester.

## Admission to Different Specializations for students enrolled in Specialized Programs

- The distribution of students among different Specializations, Mechanical, Architectural, Electrical and Civil, after the Summer Semester.
- Students in Specialized Programs need to earn at least 25 CH in order to be able to be admitted to a Specialization after Freshman Level.
- The GPA among these 25 CH from University and Faculty requirements in the Freshman Level is the main factor to differentiate between students plus the requirements for each specialization in the following table.

| Specialization | Pre-Requisites | Percentage of <br> Freshman <br> Students | Max. number of <br> students in <br> Level 1 |
| :---: | :--- | :---: | :---: |
| Mechanical | MDP011: Engineering Drawing | $22 \%$ | 500 |
